## **The Freedom Technology Community**

We are nearing the end of this manual, but hopefully not the end of our relationship. We trust that you have enjoyed the journey as much as we have. We hope the fog has lifted and your eyes have been opened to certain fundamental delusions. We sincerely hope your life has changed in ways that could not have been described at the commencement of the journey.

This final chapter talks a little about the Freedom Technology Community and what you can expect from us in the months and years to come.

## ***What the Future Holds for Fresh Thinkers***

You will notice that this entire manual avoided any discussion of a political nature. This is because the principles covered by *Fresh Wisdom* are timeless, whereas the current political climate is fairly transient, and events develop quickly and frequently. Any comment we make today would be out of date within a week.

Throughout the manual we have presented evidence for certain facts that have been hidden from us. All throughout we have encouraged you to decide what conclusions should be drawn from each lesson. But with the current political and military climate considered, time is getting shorter for all of us. For this reason we wish to close this manual with a number of statements that may further shock you.

## **Self Evident Truths**

During the writing of the Declaration of Independence, the authors were forced to draw some conclusions they did not have time or space to prove. They called these unsupported claims 'self evident truths,' meaning they were so obviously true that they did not need to be proved.

In a similar vein, we now offer certain blunt statements that we find to be self-evident concerning the state of the world as we write this, approaching 2006.

## **Self Evident Truths of the World in 2006**

- We are in an era of increasing serial wars. Some have stated that World War 3 has already commenced;
- All wars have been deliberately engineered by those who profit from war, and are a physical manifestation of the spiritual battle occurring in another dimension;
- These profiteers (Warmakers) include politicians, international bankers and mega-corporations with powerful lobbies in government and low visibility power groups behind the scenes;
- In every fight there is a bully who picks the fight and a victim who is forced into the conflict;
- In Iraq, the USA is the bully. In the Holy Land, Israel is the bully and Palestine the victim;
- Two by-products of war are immorality and financial dilution;
- The method of financing wars is always the printing of money, or 'financial dilution';
- It is shortsighted to look for a political solution to serial wars, because political parties are controlled by the same power structure mentioned above;
- Natural disasters are the Warmaker's next best friend and take the place of unnaturally created disasters (wars) as a method of shifting wealth;
- In the USA, the Federal Reserve System is a private (non-government) organization that has been granted an exclusive monopoly to create credit money. The global supply of money is controlled by bankers in London;
- Those with the smallest income and the least capital are the most diluted by this system;
- Every dollar spent in every war must be repaid, because war produces no gain - it only shifts assets. Intelligent investing will not protect you from dilution, because it cannot protect you from the by-product of dilution - war and immorality;
- The war on terrorism is, in fact, a war of dilution. The effects of World War 3 will be felt by the man in the street at an economic level, not a military level;
- Most individuals have not seen these 'self evident truths' simply because the media is controlled by a half dozen Warmaker influenced companies;
- It is unlikely that serial wars, financial dilution, and moral collapse of our age can be avoided because it is the inherent nature of man. There is a deep-rooted need in many powerful leaders to deny the existence of the Positive Universal Force, because if they did not do this, they would have to submit

their own behavior-patterns to the instruction set introduced by the Positive Force. This is unacceptable to the Negative Force, hence the giant Cosmic Battle, with ramifications in this dimension.

Because the statements above are self evident truths, there can be no soft landing from the financial and military disaster various parts of the world now face. But financial disaster is less permanent than moral destruction. Our parents survived The Great Depression, and those who are mentally prepared for the next Depression will survive it too. Let us discuss a few very specific actions one can take if you agree that time is indeed running out.

### **Self Preservation**

The historical average for free societies to move from total freedom to total lockdown is 7 years. The US clock started ticking on September 11, 2001. Using the average of 7 years takes us to September 2008. However, recent developments in the advancement of a police state have moved very quickly, which seems to indicate that Martial Law could be declared in the US sooner than 2008. Martial Law will be introduced in tandem with a collapsing economy and the fictitious Avian Flu.<sup>1</sup> When the US economy falters, the rest of the global economy will follow suit. The writing is on the wall that we are entering a time of great upheaval, perhaps as early as 2006, perhaps as late as 2012.

For the sheeple, life will continue as they have been accustomed to live until they have lost everything. It is difficult to believe, but that is precisely what has happened in every single Depression to date. Known as complacency, this lackadaisical mindset is very often fuelled by an artificially high living standard, thanks to easily available credit prior to the collapse. But when the credit disappears, so will lives.

It is foolish to refuse to prepare for events that are a distinct possibility. It is beyond foolish to see these events approaching and ignore them. As winter arrives, the necessary arrangements are made for warmth. Failure to do so means many months of cold and misery at best, and death by exposure at worst. Failure to prepare for war will mean immense economic hardship at best, and forced labor in concentration camps leading to death at worst.

The question is, What will you do? Having completed this manual the temptation will be strong to slip back into the anti-civilization bubble you have worked so hard to escape from. We hope that is not the path you will choose and encourage you to consider the following actions.

### **Real Estate**

If you currently own real estate in any Western nation, but particularly the US, consider extracting the capital from your property as soon as possible, even if that means selling and renting for the next few years. It is better to sell before the peak than after. We fear the peak has already passed.

*“If the American people ever allow private banks to control the issue of their currency, first by inflation, then by deflation, the banks and the corporations which grow up around them will deprive the people of all property until their children wake up homeless on the continent their fathers conquered.” – Thomas Jefferson – Founding President of the United States.<sup>2</sup>*

Private Banks *do* currently control the issue of currency, through the private Federal Reserve (which is neither Federal, nor a Reserve). Over the past 80 years, inflation and deflation have been introduced in a controlled manner, purely with the intent of ‘depriving people of property’.

*“A democracy cannot exist as a permanent form of government. It can only exist until the voters discover that they can vote themselves largess from the public treasury. From that time on the majority always votes for the candidates promising the most benefits from the public treasury, with the results that a democracy always collapses over loose fiscal policy, always followed by a dictatorship.*

*The average age of the world's great civilizations has been 200 years. These nations have progressed through this sequence:*

*from bondage to spiritual faith  
from spiritual faith to great courage  
from courage to liberty  
from liberty to abundance  
from abundance to selfishness  
from selfishness to complacency*

<sup>1</sup> [www.healthliesexposed.com/articles/article\\_2005\\_10\\_14\\_2714.shtml](http://www.healthliesexposed.com/articles/article_2005_10_14_2714.shtml)

<sup>2</sup> [www.ruwart.com/Healing/chap9.html](http://www.ruwart.com/Healing/chap9.html)

*from complacency to apathy*

*from apathy to dependency*

*from dependency back to bondage.*" - Alexander Fraser Tytler (1742-1813)<sup>3</sup>

It is not difficult to see that many Western nations are at least in the age of apathy, if not total dependency. Look for example at the expectation that governments must assist in any emergency – no longer are individuals willing or able to fend for themselves. The very next stage is bondage.

America is 230 years old in 2006. Where do you think that nation is in that sequence?

Our strong recommendation is to sell any real estate you may have before it is too late.<sup>4</sup>

### **Self Sufficiency**

It goes without saying that now is a particularly precarious time to be relying on a salary or on your possibly insufficient retirement plans. Develop the necessary skills to build an alternative income stream as described in this manual. Remember that inaction and procrastination will be your downfall.

### **Support Groups**

Develop a close-knit group of friends who share a similar mindset – a group like this will be invaluable when days become dark. You may wish to join others who have completed this manual in intelligent debate, discussions and questions in our unique Forum.<sup>5</sup>

### **Get Out Now**

In one of the clearest warning signs of what is in store for most Western nations, Dr. Lawrence Britt has examined the fascist regimes of Hitler (Germany), Mussolini (Italy), Franco (Spain), Suharto (Indonesia) and several Latin American regimes. Britt found 14 defining characteristics common to each. The frightening aspect of his study is the presence of these characteristics in most Western 'democracies' today. You can read *The 14 Defining Characteristics Of Fascism*<sup>6</sup> and then decide whether your country is already a fascist state or not.

It appears that the US, UK, Canada, Australia, Israel and many European nations are already fascist. There may be many more.

The dictionary definition of fascism is: 'A system of government marked by centralization of authority under a dictator, stringent socioeconomic controls, suppression of the opposition through terror and censorship, and typically a policy of belligerent nationalism and racism; A political philosophy or movement based on or advocating such a system of government; Oppressive, dictatorial control.'

Simply stated, a fascist government always has one class of citizens that is considered superior to another based upon race, creed, origin or any other arbitrary classification. It is possible to be both a republic and a fascist state. The preferred class lives in a republic while the oppressed class lives in a fascist state.

More than a class system, fascism specifically targets, dehumanizes and aims to destroy those it deems undesirable.

Why all the discussion on fascism?

Because, whether it is fair or not, we are all deemed undesirable by those who run the world, both seen and unseen. The writing is on the wall for Martial Law to be declared in the US. What will trigger it is any one of a number of scenarios:

- Simultaneous 'terrorist' attacks across the nation;
- Simultaneous 'natural' disasters across the nation;
- The planned outbreak of a deadly virus which will require quarantining of large groups.

Note that these events can be staged, and may occur in unison to enhance the effect of creating fear, panic and pandemonium.

The countries most at risk of implementing Draconian police state laws are the US, the UK and Australia. Europe is not far behind, as is Canada.

If you live in any of these countries, consider relocating to at least 200 miles (300 kilometers) away from any city with a population of more than 1 million. Ideally you should consider leaving your country entirely.

There is no 100% safe and totally immune country to escape to, but some are better than others. Avoid China, Russia, Africa and most South American countries. We recommend SE Asia, specifically:

- Thailand mainland and surrounding islands (Andaman Sea and Gulf of Thailand)
- Malaysia and islands
- Indonesia and islands
- Philippines and islands
- New Zealand and islands
- The islands of Micronesia and Polynesia
- Cambodia and islands
- Laos
- Vietnam and islands
- Myanmar and islands

You will need to do your own research as to which destination suits you better. We can offer some advice and assistance through [www.Econocor.com](http://www.Econocor.com), a company dedicated to providing low-cost affordable housing throughout SE Asia.

### **Gold**

Since 1980, Central Banks in the US and Europe have been selling their gold hordes in order to keep its true value down and therefore an unattractive option for investment. The same method was employed just prior to World War 1 and World War 2. Once economies crash, gold ownership is declared illegal, and the previously sold gold is returned to Central Bankers via wide-scale confiscation.

In the past, wise citizens refused to turn their gold over, even though this act labeled them as criminals. Keep the following Axioms in mind:

Axiom 10 – Morality: Conventional morality is based on arbitrary, man-made, fickle laws.

Axiom 6 – Rules & Regulations: *Fresh Thinkers* live by their own set of rational, coherent and internally generated rules, which may, or may not agree with the externally imposed laws. Sometimes they will, sometimes they will not. They follow these regulations and accept full and total responsibility for their every action.

These wise citizens used their gold, their real money to leave their homelands and relocate to safer countries.

The conversion of your wealth to real money therefore becomes a priority. Remember too that you are converting your assets into wealth so as to be able to escape an economic war and Martial Law. The sooner you act the more real money you will have.

Keep in mind too, that you are not converting your wealth in order to pay your debts, assuming you have chosen to leave your homeland. Even if you have to purchase gold using your instruments of debt (credit cards, mortgage loans, personal loans, etc.) this is what you must do.

In addition, no concern should be given to material possessions, except those that hold the most sentimental value. Your goal is escaping and building a new life all over again somewhere else. Everything of value to your old life should be sold. This will also assist your efforts in being as mobile as possible.

Your one and only objective should be to accumulate as much gold as possible in the shortest amount of time as possible. Once you are safely out of the way of war, then and only then should your thoughts turn back to the accumulation of luxuries.

A reliable gold dealer in the US is International Collectors Associates in Durango CO.<sup>7</sup> Alternatively, do a Google search on “gold bullion dealer” with the name of your city.

### **Left Behind**

Being left behind in a nation under Martial Law should never be your first option – escaping before war arrives on your doorstep should always be your first priority.

---

<sup>7</sup> [www.mcalvany.com](http://www.mcalvany.com)

But if for whatever reason you did not escape an area which has deteriorated to Martial Law, remember this:

“...a human being can alter his life by altering his attitudes of mind.” – William James

Your mental attitude is the most important asset when you find yourself caught up in a war. The essence of your plan should be for survival at any cost and survival entails escape, evasion, concealment and foraging. None of these can be accomplished without planning. In preparing your plan it is best to start with worst case scenarios. What happens if you cannot draw cash because bank accounts have been frozen? What happens if you cannot obtain food because supermarket shelves are empty? What happens if you cannot use your vehicle because gasoline is not available?

You must further be mentally prepared for experiences that, in reality, cannot be prepared for. This may sound like a contradiction, but is rather a statement of fact. How do you prepare to watch as your wife, mother or daughter is raped? How do you prepare to watch the sudden deaths of those closest to you and yet still continue on? How do you walk away from one child lying dead beside the road with no burial or time to mourn while holding the hand of your other child?

While certainly unpleasant, these are the realities of war, and require careful thought and mental discipline and preparation if you are to save yourself and your family.

Please do not take this information as all you will ever need to know. To be fully prepared entails far more detailed research. A good place to start is [www.ThreeWorldWars.com/prepare](http://www.ThreeWorldWars.com/prepare), but even that is only a starting point.

### **Community Living**

The preceding discussion is necessary to explain the state of the world politically, militarily and economically. Much the same as gravity works whether you understand it or not, so the current state of the world is as it is, whether you choose to accept it or not.

While this may be an extremely negative way of viewing current events, the chance to turn hardship into opportunity presents itself in the Freedom Technology Community.

From the days of the hunter-gatherer culture, individual humans have learned that there is strength in numbers and that sharing work and resources can be a good thing. The Latin root *munus* or gift, brings into the meaning of community the aspect of giving of one's self to others. The balance between self-interest and shared-interests within and among members of a group is the crucial factor in community formation. When enough participants in a group develop an attitude of caring for the well-being of the whole, or the common good, the prospect of community is present.

Whatever drives people to cooperate and collaborate in the first place, is not quite as important in the context of community as what makes them continue to associate. Resilient connections between and among people are what is important in the formation of viable communities. Successful efforts by a mix of participants tend to attract the attention of other less connected individuals who may seek to join the group that is succeeding.

If the sense of community exists, both freedom and security exist as well. The Community then takes on a life of its own, as people become free enough to share and secure enough to get along. This is the spirit of community, and the spirit of the Freedom Technology community. Initially this is a virtual community, meaning we only ever meet online in the Forum.<sup>8</sup> However, as time progresses, intentional communities may develop all over the world.

### **What is an Intentional Community?**

An intentional community<sup>9</sup> is a group of people who have chosen to live with or near enough to each other to carry out their shared lifestyle or common purpose together. Ecovillages are intentional communities that aspire to create a more humane and sustainable way of life. Typically, an ecovillage builds ecologically sustainable housing, grows much of its own food, recycles waste products harmlessly and generates its own off-grid power. These are the communities that Freedom Technology encourages. If you have not already done so, we recommend you register<sup>10</sup> your details with Freedom Technology so that we may update you as these plans

progress. If you would like to create such a community, please do contact us so that discussions may commence.

### ***Wrapping Up***

We have reached the end of our journey together, but the start of a whole new life, filled with purpose. As you contemplate what the future holds for you, remember this little saying:

*“Life is not a journey to the grave with the intent of arriving in a pretty and well-preserved body, but rather to skid in broadside, thoroughly used up, worn out, and loudly proclaim ‘Wow, what a ride!’” –

## Appendix A – Finding the Old & Young Woman

This explanation is to assist in finding either the old or young woman. Read the relevant description below and then go back to page **Error! Bookmark not defined.** to see if you can find her.

**Old Woman:** She is looking slightly down towards your left, with her chin tucked into her neck. The young woman's choker is her mouth. The young woman's cheek-line and chin is her nose. The young woman's ear is her eye.

**Young Woman:** She is looking away from you towards your left. The old woman's mouth is a choker around her slender neck. The old woman's nose is her cheek-line and chin (looking away from you). The old woman's left eye is her left ear.

## Appendix B – Suggested Wedding Vows

[Man] and [Woman] have not come here today to make a solemn promise or to exchange a sacred vow.

[Woman] and [Man] have come here to make public their love for each other; to declare their choice to live and partner and grow together – out loud and in your presence, out of their desire that we will all come to feel a very real and intimate part of their decision, and thus make it even more powerful.

They have also come here today in the further hope that their ritual of bonding will help bring us all closer together. If you are here today with a spouse or partner, let this ceremony be a reminder – a rededication of your own loving bond.

We will begin by asking the question: Why get married? [Man] and [Woman] have answered this question for themselves. Now I want to ask them one more time, so they can be sure of their answer, certain of their understanding, and firm in their commitment to the truth they share.

(Person leading the ceremony lifts two Red Roses)

This is the Ceremony of Roses, in which [Woman] and [Man] share their understandings, and commemorate that sharing.

Now [Man] and [Woman], you have told me it is your firm understanding that you are not entering into this marriage for reasons of security.

That the only real security is not in owning or possessing, nor being owned or possessed.

Not in demanding or expecting, and not even in hoping, that what you think you need in life will be supplied by the other; but rather, in knowing that everything you need in life - all the love, all the wisdom, all the insight, all the power, all the knowledge, all the understanding, all the nurturing, all the compassion, and all the strength - resides within you; and that you are not each marrying the other in hopes of getting these things, but in hopes of giving these gifts, that the other might have them in even greater abundance.

Is that your firm understanding today?

(Appropriate response from couple e.g. "It is".)

[Woman] and [Man], you have told me it is your firm understanding you are not entering into this marriage as a means of in any way limiting, controlling, hindering or restricting each other from any true expression and honest celebration of that which is the highest and best within you – including your love of God, your love of life, your love of people, your love of creativity, your love of work, or any aspect of your being which genuinely represents you, and brings you joy.

Is that still your firm understanding today?

(Appropriate response from couple e.g. "It is".)

Further [Man] and [Woman], you have told me it is your firm understanding that you are not entering into this marriage in the blind belief that it will miraculously last forever, based purely on the traditions of a promise. You acknowledge that a fulfilled relationship requires both partners to agree that the mutual and honest exchange of each other's contribution to the relationship will lead to a temporary increase in happiness for both partners.

If any promise is to be made today, it is that you both promise to acknowledge the ongoing need for mutual and honest exchanges of value in the relationship. You both absolve each other of any ongoing commitment if the current approximately equal exchange of values becomes imbalanced.

Is that still your firm understanding today?

(Appropriate response from couple e.g. "It is".)

Finally, [Man] and [Woman], you have said to me that you do not see marriage as producing obligations, but rather as providing opportunities - opportunities for growth, for full self-expression, for lifting your lives to their highest potential, for healing every false thought or small idea you ever had about yourself, and for the communion of your two souls.

You are starting a journey through life with one you love as an equal partner, sharing equally both the authority and the responsibilities inherent in any partnership, bearing equally what burdens there be, basking equally in the glories.

Is that the vision you wish to enter into now?

(Appropriate response from couple e.g. "It is".)

I now give you these Red Roses, symbolizing your individual understandings of these Earthly things; that you both know and agree how life will be with you in bodily form, and within the physical structure called marriage. Give these Roses now to each other as a symbol of your sharing of these agreements and understandings with love.

(Person leading the ceremony lifts two White Roses, up side down, with a ring on each stem).

Now, please each of you take this White Rose. It is a symbol of your larger understandings, of your spiritual nature and your spiritual truth. It stands for the purity of your Real and Highest Self, and of the purity of God's love, which shines upon you now and always.

(Rose with appropriate ring given to [Man] and [Woman]).

What symbols do you bring as a reminder of the promises given and received today?

([Man] and [Woman] remove the rings from the rose stems and give them to person leading the ceremony, who holds them in hand and says...)

A circle is the symbol of the Sun, and the Earth, and the Universe. It is a symbol of holiness, and of perfection and peace. It is also the symbol of eternity of spiritual truth, love, and life...

That which has no beginning and no end. And in this moment, [Woman] and [Man] choose for it to also be a symbol of unity, but not of possession, of joining, but not of restricting, of encirclement, but not of entrapment. For love cannot be possessed, nor can it be restricted. And the soul can never be entrapped. Now [Man] and [Woman], please take these rings you wish to give, one to the other.

([Man] and [Woman] take each other's rings).

[Man], please repeat after me.

I, [Man]...ask you, [Woman] to be my partner, my lover, my friend and my wife...I announce and declare my intention to give you my deepest friendship and love...not only when your moments are high...but when they are low...not only when you remember clearly Who You Are...but when you forget...not only when you are acting with love...but when you are not...I further announce...before God and those here present...that I will seek always to see the Light of Divinity within you...and seek always to share...the Light of Divinity within me...even, and especially...in whatever moments of darkness may come.

It is my intention to be with you forever...in a Partnership of the Soul...that we may do together God's work...sharing all that is good within us...with all those whose lives we touch.

[Woman], do you wish to grant [Man]'s request that you be his wife?

(I do)

Now [Woman], please repeat after me.

I, [Woman]...ask you, [Man] to be my partner, my lover, my friend and my husband...I announce and declare my intention to give you my deepest friendship and love...not only when your moments are high...but when they are low...not only when you remember clearly Who You Are...but when you forget...not only when you are acting with love...but when you are not...I further announce...before God and those here present...that I will seek always to see the Light of Divinity within you...and seek always to share...the Light of Divinity within me...even, and especially...in whatever moments of darkness may come.

It is my intention to be with you forever...in a Partnership of the Soul...that we may do together God's work...sharing all that is good within us...with all those whose lives we touch.

[Man], do you choose to grant [Woman]'s request that you be her husband?

(I do)

Please then, both of you take the rings you would give each other, and repeat after me:

With this ring I thee wed...I take now the ring you give to me...and give it place upon my hand...that all may see and know...of my love for you.

We recognize with full awareness that only a couple can administer the sacrament of marriage to each other, and only a couple can sanctify it. Neither myself, nor any power invested in me by the State, can grant me the authority to declare what only two hearts can declare, and what only two souls can make real. And so now, inasmuch as you, [Woman], and you [Man], have announced the truths that are already written in your hearts, and have witnessed the same in the presence of these, your friends and children, and of the One True God – we observe joyfully that you have declared yourself to be Husband and Wife.

Let us now join in prayer.

Spirit of Love and Life: out of this whole world, two souls have found each other.

Their destinies shall now be woven into one design, and their perils and their joys shall not be known apart. [Man] and [Woman], may your home be a place of happiness for all who enter it; a place where the old and the young are renewed in each other's company, a place for growing and a place for sharing, a place for music and a place for laughter, a place for prayer and a place for love. May the beauty and the bounty of your love for one another constantly enrich those who are nearest to you, may your work be a joy of your life that serves the world, and may your days be good and long upon the Earth.

Amen.

## **Appendix C – The Fresh Wisdom Axioms**

### **Axiom #1 – Reducing Controls**

In order to become free, *Fresh Thinkers* greatly reduce the external controls placed on their life. They will not allow themselves to be controlled by anyone (including Freedom Technology and the authors of *Fresh Wisdom*). They recognize the various controlling tactics for what they are, and will not allow them to influence their life negatively.

### **Axiom #2 – Avoid Con Artists**

Con artists seek to maximize the volume of life's pleasures which flow their way, by conning money, energy, time and talent from other people. By bending the talents, energy and time of the mass of people to their will, such individuals and organizations seek to profit with minimum effort on their part. *Fresh Thinkers* understand this and avoid Con Artists.

### **Axiom #3 – Recognizing Illusions**

*Fresh Thinkers* make it a lifelong task to continually unmask the illusions created by others. The extent to which they believe in one or more of the illusions is the extent to which they are still enslaved. The facets of life which are home to the greatest number of illusions are:

1. Health and Longevity
2. Relationships and Romantic Love
3. Religion
4. Finance, Money and Wealth Creation
5. Personal Freedom

There are, of course, many other minor illusions, but your knowledge of the five main categories of illusions will provide you with the information required to tackle the smaller and less significant ones. Remember – the illusions are the vehicles which people who want something from you use to extract your time, money and talents.

### **Axiom #4 – All Are Not Equal**

Very few people will choose the path of freedom and unlimited personal power in their lives. In this respect, all are created equal in the options available to them, but not all make the same (equal) choices in life.

As *Fresh Thinkers*, we recognize this inequality, and will not attempt to convince the sheep of the value of this lifestyle. We realize this is an impossible and thankless task.

### **Axiom #5 – Altruism**

True altruism does exist, but is so rare that it can be ignored for all intents and purposes. By true altruism, we mean an act which is entirely selfless with absolutely no pay-off of any description.

### **Axiom #6 – Rules and Regulations**

*Fresh Thinkers* live by their own set of rational, coherent and internally generated rules, which may, or may not agree with the externally imposed laws. Sometimes they will, sometimes they will not. They follow these regulations and accept full and total responsibility for their every action. They also accept the consequences on a strict cause and effect basis, if these actions happen to conflict with the law of the land at a particular time, and in a particular place. We have no opinion on the fairness of any particular law, since we know that all laws are more or less arbitrary and ‘unfair’.

### **Axiom #7 – Fairness**

The world is, and always has been, an unfair place. *Fresh Thinkers* know this, and do not find it surprising. They do not squander their life-energies in an attempt to change this situation.

The statement "It is not fair!" comes only from the mouth of a sheep that is controlled by the law, and is whining because the rules are not tight enough. Someone has slipped through the net, and the sheep want the net closed.

### **Axiom #8 – Purpose**

The uninitiated masses almost never know their real reasons for doing anything. *Fresh Thinkers*, in contrast, never accept anything without questioning and understanding it. They also understand that their life has a purpose, even though their purpose may not yet have been fully defined or understood.

### **Axiom #9 – Religion**

Religions and cults are man-made inventions designed to allow an elitist priesthood to con value out of those that follow them. *Fresh Thinkers* do not blindly follow any man-made religion.

### **Axiom #10 – Morality**

Conventional morals are purely influenced by the latitude and longitude at which you happen to find yourself, together with the date currently showing on your calendar. In other words, laws are applicable to the country you happen to be in at a specific time. It is likely that those laws were different in the past and do not currently apply to other locations. This means that conventional morality is based on arbitrary, man-made, fickle laws. The morals of a *Fresh Thinker* are not based on man-made laws but are instead internally generated, according to the Immutable Laws of Nature.

### **Axiom #11 – Responsibility**

Responsibility for what happens in the life of a *Fresh Thinker* rests solely with that person. This is particularly true when known laws are transgressed, and we do not question the fairness or otherwise of the consequences.

### **Axiom #12 – Relationships**

Successful relationships hinge upon a continued and approximately equal exchange of values between the partners. When an imbalance occurs a *Fresh Thinker* either addresses the imbalance or ends the relationship.

### **Axiom # 13 – Biblical World View**

A *Fresh Thinker* accepts without question the Biblical World View and that the only scientifically, empirically proven source document is the Bible. This book is not at variance with any proven scientific fact and shows an internal concordance of knowledge of the world of science which the initial writers could not have had, except for its inspiration by an Outside Mind. The Biblical World View is thus the only scientifically proven paradigm (way of looking at life), and thus represents a stable pyramid.

### **Axiom # 14 – Modern Science Distorts the Biblical Message**

A *Fresh Thinker* understands that the theme of the Bible is that of a gigantic Cosmic conflict between positive and negative forces. We therefore accept that any distortion of the Biblical World View is accomplished by negative forces intent on preventing the achievement of a personal Omega Point.

It is a whole system, but Christians do not see the connections.”

The purpose of this Forum is to discuss the Wave Structure of Matter (WSM) which is summarized in the main Forum sections on Index page. This work is still in the early stages of development, both in terms of knowledge, and in getting this knowledge out into the world. Significantly, by describing Reality most simply, in terms of One thing existing, Space, with Properties of a Continuous Infinite Eternal Wave Medium, the Wave Structure of Matter (WSM) explains and solves many of the fundamental problems of Science (Metaphysics Philosophy Physics) by explaining how matter (and thus humans) are necessarily interconnected to other matter in Space within the Universe. We think this knowledge is important, hope that you find it interesting and will enjoy pondering upon this new perspective for understanding physical reality.

John Warwick Montgomery tells us a parable: “A great king (God) had a son (mankind) who had grown up out of contact with his father. While journeying in a distant province the son fell seriously ill. The doctor accompanying him (reason) was incapable of treating the disease, but the king, learning of his son’s plight, sent instructions (the gospel) for the healing of the boy. However, the king’s numerous enemies also discovered what had happened, and they likewise sent remedies – purporting to come from the king – which were actually poisonous (non-Christian religious and philosophical options). The son’s solution to this dilemma was to evaluate the remedies by three tests: first, what each remedy revealed about his father (comparison being made with the likeness to the father possessed by the son himself); second, how accurately each remedy pictured the nature of the disease; and thirdly, how sound the various curative methods appeared to be. With the help of the doctor, the son finally made his decision in terms of the remedy that best satisfied all three tests.”
